

FORX FEATURE

MONTHLY EDITION

Message From the President

Dear Members,

As you all know, Forx Builders Association lost our Executive Officer, Dylan Young. We wanted to give ourselves and his family time to grieve before we moved forward with filling the position. As we entered March, we began interviewing for a new Executive Officer of FBA. Although we had several qualified candidates, we were blown away by one in particular. It is with great pleasure that we introduce Katie Boespflug as our new Executive Officer.

We would like to invite all our members in welcoming Katie to her new position! Katie's first order of business will be planning a Builders After Hours so we can give her a proper welcome and introduction. More information will be coming out very soon for this event. In the meantime, feel free to stop by the office to introduce yourselves as well. We are excited to move forward in the best way possible and we continue to be grateful for our members' support during this transition.

Sincerely,

Casey Borkowski

Message From the New Executive Officer

My name is Katie Boespflug. I was born and raised in East Grand Forks, and my family and I reside in EGF. I am married and have 4 wonderful, but busy boys. I have recently come from the Parks & Recreation office in East Grand Forks, where I was involved in the community with events and activities. I love going out and meeting new people in the community and learning about all the different opportunities as well as learning about the wonderful businesses our area has to offer.

When I am not working, I am busy running around with my 4 boys to all their activities. In the summer, you can find my family and I at our lake place at Island Lake!

I look forward to working with everyone and to seeing what I can offer to our association, it's members, and future members.
